

Study the scene of the crime

Want to be a forensic investigator? As a student in Lynn's forensic investigations program, you'll learn how to work in the field of criminalistics. You'll get hands-on experience through testing, studying, analyzing and processing crime scenes, and learn how to work with law enforcement.

This forensic investigations degree gives you an introduction to the uses and methods of forensic science and examines the types of evidence attained to prepare you for a role as a crime scene investigator. Before you graduate, you will even create and solve a crime of your own using investigative techniques such as forensic psychology, trace evidence analysis, forensic pathology and more.
